12. Led Light: Switch On your speaker, led light will turn on. Long press "*" button to turn on/off the light, click "*" button can change led light mode and switch off the led light.

Troubleshooting

1. Some terminal music players are without automatic switching play function. In this case, a 'pop' noise may be heard between songs.
2. If you cannot wireless connect to your mobile device. Try removing the Speaker from your mobile device's saved devices and re-connect as instructed above.
3. The sound performance may also be affected when there is a weak connection between the mobile device and the speaker. To improve connection, bring the mobile device closer to the speaker or remove any obstacles between the two devices.
4. The sound performance may also be affected if the battery power level is low on the Speaker. Please make sure the speaker is fully charged to improve this issue.
